## **2019 Group Pricing Information**

The Pocket Occupational Therapist provides quality training based on evidence and the latest research. Cara Koscinski has been teaching professionally since 2005 and continues to create informative and engaging courses. Each course contains a resource list as well as references in APA format.

Our courses are taught via on-line learning management software. All that is required is internet access, ability to download and print PDF handouts, and the ability to view internet streaming videos.

If you are considering a group training, we are happy to help! Each year many companies such as yours enjoy convenient learning in the comfort of their own environment. Group training is a wonderful way to discuss case studies and complete engaging activities designed to reinforce critical learning concepts. Save on travel and other costs associated with in-person courses!

*Here is what you need to know for our group training.*

### **HOW INTERACTIVE ARE THE COURSES?**

If you are considering an on-demand course for your group and are worried that people won't participate, don't be. Most people really enjoy the self-paced nature of the training. The content we provide is interesting and whenever possible, is supplemented by videos. Therapists really enjoy and benefit from the programs.

Each course comes with a PDF handout of information contained in the course. Participants can take notes during the course in the same way they would if attending live. The benefit of on-demand courses is that therapists can pause and rewind to ensure they understood or heard the information correctly.

Additionally, our courses each have a post-test to ensure the participants learned what they were supposed to learn. This is a requirement for earning a certificate for PDUs.

If you are interested in a more interactive training, we recommend adding a live question and answer session for your group. This can easily be added at a time when it's convenient for you.

### **DO YOU ALSO OFFER LIVE ONLINE SESSIONS FOR GROUPS?**

Yes! Any of our courses can be presented live online. The live option is dependent on instructor availability. Pricing for live programs is also greater than for the on-demand versions of the course.

If a live group session is chosen, the group leader will be provided:

- a group login to our software 24 hours prior to the scheduled session
- PDF version of the handouts
- technical check 30 minutes prior to the scheduled course

Your group leader will be responsible for submitting attendee names and e-mail addresses to the instructor. Then, a separate post-test will be sent to each attendee. The instructor will be responsible for grading and providing certificates of attendance/completion.

Each participant must earn at least an 70% for a certificate of attendance to be issued.

### **CAN I CUSTOMIZE THE COURSE FOR MY GROUP?**

Specific company information can be added if requested. Information often ranges from setting goals based on your specific reimbursement requirements or adding slides regarding your policy/procedure. If an on-demand course is adapted, additional costs may apply.

We can customize the course with your own logo and branding, however, you must have a group of 100 or more for that option.

### **HOW MANY PEOPLE CAN YOU HANDLE IN ONE GROUP?**

We can handle up to 100 people for on-demand courses. For online live sessions with greater than 100 attendees, please contact Cara at [ThePocketOT@gmail.com](mailto:ThePocketOT@gmail.com)

### **DO YOU OFFER GROUP DISCOUNTS?**

Yes! Here is our pricing structure by attendee:

2 to 5 – 15% discount

5 to 25 – 25% discount

26 to 50 – 45% discount

51 to 75 – 55% discount

Greater than 75, contact us for the flat rate.
